not crack or break in changing weather conditions. The books are produced in a reinforced paper material, then laminated with a special coating to extend longevity.

GASOILA E10 GAUGING PASTE

Cleveland, OH — Gasoila's line of gauging pastes now includes a water finding paste for E10 fuel applications. Gasoila All-Purpose Water Finding Paste instantly changes to a yellow-green color when it comes in contact with water in any petroleum application, including ethanol and methanol blends, diesel, kerosene, #2 oil, JP-4 and JP-5. Available in a 2-ounce tube, this paste detects phase separation in ethanol blends.

FASTCONNECT HOMERUN FROM BOSTON RETAIL

Medford, MA — Boston Retail's FastConnect UL-approved Homerun connector for the FastLane modular wire system allows full integration of power distribution from switch gear to end-use equipment and devices. Components can be installed in vendor-supplied fix-

The FastConnect Homerun is specifically keyed to match the appropriate circuits from panel to point of use.

tures, equipment, power panels and accessories to speed up deliveries and installations. Isolated ground, conventional and mixed power platforms are available, as are additional accessories and complementary components for total store integration.
