**Thread Sealant**

E10 & E85 compatible

E-Seal thread sealant with PTFE was developed specifically for ethanol-blended gasoline ap-

plications. It is also compatible with regular unleaded gasoline. Non-hardening and non-toxic, the dark-green opaque paste seals liquids to 10,000 psi and gases up to 3,000 psi. It comes in 4, 8, and 16-oz containers with a brush-top applicator.

**Combination Hearing Protector**

high noise reduction rating, plus radio

QuietTunes headset combines improved noise reduction capabilities with an AM/FM radio that is isolated to prevent damage from moisture and sweat. Radio also has an auxiliary input for MP3 players, scanners, etc. Available in both battery-powered and rechargeable versions, the radio features an automatic 4-hr shutoff to conserve power.

**Angle Grinder**

runs cool during toughest jobs

Cool Flow technology, using unrestricted air flow and an extra-powerful fan, ensures the Model W8-115 Quick angle grinder

stays cool during tough applications such as cutting and grinding metal and concrete. The 4½-in. grinder has an 8.0-amp motor with 800-w power, 19.5 lb-in. torque, and 10,000-rpm no-load speed.
