DYNOMAX SUPER TURBO JEEP EXHAUST

■ Tired of the quiet tone of your stock exhaust system? Jeep owners can now enjoy the ultimate in exhaust performance with a new series of DynoMax Super Turbo exhaust systems covering several popular Jeep applications, including the '05 Jeep Wrangler Unlimited and Rubicon. The new Super Turbo muffler is a high-efficiency unit featuring patented flow directors to channel exhaust flow for enhanced power. Complete with a stainless-steel polish tip, this is a good way to bring your Jeep to life.

For more information, contact: DynoMax, (734) 384-7806, www.dynomax.com.

NEW FRAM HIGH-MILEAGE OIL FILTER

■ Taking care of your high-mileage vehicle always requires a little extra attention. Fram is now offering a new high-mileage oil filter available to most vehicles on the road today. A dirty engine can contribute to poor performance, increased exhaust emissions, and deterioration of seals and gaskets. Using a time-release technology system, the filter slowly dissolves an exclusive gel additive into your engine oil, thus helping older engines stay cleaner and last longer.

For more information, contact: Fram, www.fram.com.

DEEP PENETRATING OIL FROM FREE ALL

■ How many times have you tried to break loose a bolt that is rusted out? How about finding an old pair of pliers that will no longer open and close properly? Free All Oil offers a silicone-free formula that will help dissolve rust and corrosion and will help prevent the need for hammering or torching off that frozen part. Available in several convenient sizes, including 6- and 12- ounce spray cans and 2- ounce single-use packets perfect for your trail toolbox.

For more information, contact: Free All Oil, (800) 846-7325, www.freealloil.com.

KOUL TOOL FROM FRAGOLA

■ When cutting a piece of stainless-steel hose that has been used, it's nearly impossible to keep the braid from fraying. With the braid frayed, inserting the hose into the socket is a real chore. That is, until now. Using the Koul Tool, insert the socket, close the clamshell, throw on a little oil, and the hose will twist into place. You can purchase yours in available sets of three for sizes 4, 6, 8, 10, 12 and 16 mm, and they come in their own custom-molded box.
