## Low-Cost Extension Light

The Model 5330 Fluorescent Extension Light is a compact solution to the

challenge of lighting confined areas. It emanates soft, cool, glare-free fluorescent lighting that is also energy-efficient. The light is 22 in. long and available with 4-, 8- and 15-watt lamps. Hinged hooks permit fast setup and removal. The light is UL-listed and meets OSHA requirements. *McGill Electrical Product Group*

## New Water Pump Line

This line of all-new premium water pumps meets the needs of the replacement

market and provides 97% coverage for domestic and import cars, vans and medium and heavy-duty trucks. The pumps feature a unitized seal that provides exceptional protection against coolant leakage and outside contaminants; a precision-pressed hub and impeller for better performance and durability; a unitized bearing assembly made with carbon steel shafts to withstand stress; precision-machined mounting surfaces for proper sealing; and long-life gasket and hardware for accurate and easy installation. *Bosch*

## Penetrating Oil

Free All Deep Penetrating Oil contains a rust-eating formula that

quickly and easily dissolves rust and corrosion, says the manufacturer, thereby removing the need for torching, drilling or hammering and chiseling to free virtually any frozen fastener or other part. The silicone-free formula is said to be safe around paint and body shop environments. The product is offered in 12- and 6-oz. spray cans and 2-oz. single-use packets. *Federal Process*

## 180° Tubing Bender

The Imperial 470-FH Triple Head 180° Tube Bender uses patented

Roto-Lok action, which allows the tool to bend tubing 90°, rotate and lock into a new position, then bend the tubing up to another 90°. The bender can make smooth, tight-radius 180° bends because it features optimized radius forming grooves that allow the user to bend the tubing in the smallest radius possible to enable tighter turns in a minimal amount of space. A tube alignment window in the bender arm makes the bend easier

and more precise because the user can sight exact points on the forming shoe and tubing. The tool can bend soft copper, aluminum and thin-wall steel tubing in 1/8-, 1/4-, 3/8- and 1/2-in. diameters. *Stride Tool*

## A/C Leak Sealant

Super Seal Premium professional a/c leak sealant provides technicians with

an alternative to the cost of parts replacement when that is simply not an option because of the value of the car and the expense involved. It circulates in the system to protect against the small leaks that come about through normal wear and tear. According to the manufacturer, it will not damage recycling machines; it's removed from the a/c system with the refrigerant, separating from the refrigerant with the reclaimed oil. The product is covered by a limited warranty. *Cliplight*

## Entry-Level Scan Tool Kit

The ScanCheck OBD-II Scan Tool (MTSC500) allows technicians to

quickly retrieve and clear trouble codes on all 1996 and newer OBD II systems on domestic, European and Asian vehicles. The tool supports all nine OBD II test modes and Controller Area Net-
