Free All Deep Penetrating Oil, utilizing an exclusive formula that speeds repair time by freeing rusty, frozen parts faster, is now available in a "Bullet" style can.

The new Free All Deep Penetrating Oil 12-ounce Bullet can, featuring an improved, solid grip, is available at select auto parts stores nationwide. The new can style prevents slippage and includes a special straw-style applicator. Free All utilizes a formula that quickly dissolves rust and corrosion and in some cases prevents the need for torching, drilling, hammering and chiseling to free the frozen fastener or part. Unlike other formulas, the Free All silicone-free penetrant won't damage painted surfaces.
