BY GREG RUNYAN

BULLET ALTERNATORS

(\$215) are available as either 100, 140-amp models and are designed with the new 'Bullet' alternator housings, which have been optimized with superior polishing and chrome plating. All sharp lines and edges have been blended. All Bullets come with an exclusive nose cone that has a spherical shaped surface, detailed with the same features that match its case. PowerMaster Motor Sports, (865) 688-5953, www.powermastermotorsports.com.

Kurt Everard, Bridgeport, CT:

"The Bullet Alternator installed easily and adds a fantastic look under the hood of my Nova."

Brandon Ramsey, Portland, OR:

"I would definitely recommend this product to fellow Members because of its style, ease of installation, and superior performance."

FREE ALL

(\$5.89) is a rust-eating penetrant that makes it significantly faster to free corroded fasteners and many other parts. Free All features a patented, silicone-free formula that quickly and easily dissolves rust and corrosion, removing the need for torching, drilling, or hammering to free virtually any frozen fastener or part. Free All will not damage painted surfaces. Federal Process, (800) 660-6140, www.freealloil.com.

Robert Allison, New Galilee, PA:

"Free All cut and dissolved the rust on bolts from my 1950 Chevy 1/2 ton with ease. I would definitely recommend it to fellow Club Members."

Mike Corcoran, Cincinnati, OH:

"I sprayed this product on very old brake caliper bolts that were stuck and in minutes they easily came free."

NO MESS FUNNEL

(\$4) eliminates the messy dilemma of a full reservoir and half-full funnel. The patented ball-n-hook design shuts off fluid flow as soon as the funnel is lifted, preventing overspills and allowing the excess liquid to be returned to the original container. Specialty Auto Parts USA, (800) 521-1005, www.proformparts.com.

Brian Shoen, Ithaca, MI:

"The angle of the funnel and the fluid stop mechanism made adding transmission fluid and engine oil a breeze with no mess!"

Ronnie Knight, Raeford, NC:

"The size and shape of the No Mess funnel is perfect. It's very handy to have around and is very versatile enough that it can be used for a number of applications."
