

SHELL MALLEUS GREASES

The Malleus family of premium-quality, high-performance greases from Shell consists of two formulations, Shell Malleus GL and Shell Malleus OGM. Both are specially developed for the lubrication and protection of open gears and wire ropes subjected to extreme load and temperatures. These water-repellent lubricants are formulated with a blend of high-quality paraffinic mineral and synthetic base oils and a specially formulated additive system designed to provide optimum performance.

KLEENGUARD V50 EYEWEAR

With an integrated fog and particle shield and all-around comfortable foam surrounding the lens, the KLEENGUARD V50 eye protection from Kimberly-Clark Professional provides comfortable protection, while reducing fogging by 50 percent over traditional safety glasses when worn with an industrial respirator. The V50 also contours to the face, providing a better, more customized fit. Features include: ratcheted temples, scratch-resistant coating and impact resistance, and an adjustable lens angle.

THRED GARD ANTI-SEIZE PRODUCTS

Thred Gard anti-seize and lubricating compounds help protect against troublesome seizing, galling, rust and corrosion. Thred Gard's formula is non-dripping and non-hardening, making it ideal for use on nuts, bolts, bushings, turbines, sleeves, couplings and other interlocking components. The products also speed assembly and disassembly, helping technicians reduce maintenance-related downtime. Thred Gard is available in general-purpose, copper-based and nickel-based compounds.

HILTI SF 144-A CPC DRILL/DRIVER

With 609 inch/pounds of torque, the Hilti SF 144-A CPC drill/driver provides the highest power-to-weight ratio in its class. The product's highly efficient motor features 100 percent metal gears, ensuring long-lasting performance. Additionally, the drop-resistant, glass fiber-reinforced casing can withstand even the toughest jobsite conditions. Powered by Hilti's Cordless Power Care lithium-ion battery technology, the SF 144-A CPC provides the torque of most 18-volt tools with the weight of many 12-volt tools.

MCR SAFETY LEATHER PROTECTORS

MCR Safety's LineMaster leather protectors are made to be worn with rubber insulating gloves to provide protection against abrasion and puncture. Utility workers and linemen can protect their rubber insulating gloves and extend their wear by using the LineMaster product. MCR offers five series which feature premium cow skin or goat skin leather, Kevlar thread stitching, 10- or 12-inch lengths, and generous sizing to fit over rubber insulating gloves. Available in sizes 8 through 11.

NEW PIG DRUM FILLING SHELF

The PIG drum filling shelf from New Pig Corporation helps transfer fluids easily and safely from storage drums. The shelf allows the user to position fluid-dispensing containers in close proximity to drum pumps to reduce the risks of spills and drips. The product features adjustable steel strap brackets that attach securely to the drum and can accommodate a variety of container sizes, weights and configurations. When spills and drips do occur, the shelf's ribbed top will capture and retain up to 32 ounces of liquid.
