## WVDR'S FEATURED PRODUCT:

### "QuikLaw™"

- ◆ Large "No-Clog" Jet Ports
- ◆ Quick-Penetrating Designs
- ◆ Performs Well as Reverse-Circulation Bit
- ◆ Sizes from 3-7/8 up
- ◆ Variable Thread Sizes
- ◆ Easily Rebuilt by Customer

Tricones  
and  
Drag Bits  
also  
available.

Thred Gard® is an anti-seize lubricating compound available from Gasoila Chemicals. It protects against troublesome seizing, galling, rust, and corrosion found in many industrial and manufacturing environments. Its powerful formula is non-dripping and non-hardening, making it ideal for use on nuts, bolts, turbines, sleeves, coupling, and other inter-locking components.

The Stemlock Gas Bag® is a self-inflating borehole plug for air deck blasting used to block or seal a hole at any depth. They are made for 3" to 16"-diameter holes. Because chemicals cause the inflation, no air compressor is needed. No heat is produced during inflation and the ingredients are non-carcinogenic.
