**Clean, Dry Compressed Air**

The patented La-Man Extractor/Dryer provides clean, dry compressed air. This two-stage, point-of-use filter is available in sizes from 15-2000 SCFM. As a coalescer and dryer all in one, it prevents moisture from getting to applications and eliminates re-dos. New standard features include a differential pressure gauge that immediately signals a loss in pressure, durable mounting brackets and a maintenance-free weep drain. Visit [www.laman.com](http://www.laman.com).
